19th March 2021

Dear Parents and Carers,

Thank you to everyone who responded to our Relationship, Sex and Health Education Policy consultation. The consultation period is now closed. I have written directly to those who responded who included their contact details.

The most common concerns were around young children being taught about sexual reproduction. Our programme will only teach about human sexual reproduction in Year 6. Parents still have the right to withdraw from this element as it is over and above what is taught in the science National Curriculum at Key Stage 2. However, I strongly recommend that all children receive this element before they move onto their secondary education.

I am again attaching our curriculum overview so you may see all the elements and how they link. After Easter, we will be following the Health and Wellbeing units of learning.

Thank you for your continuing support.

Yours sincerely,

Alexander Banks
Headteacher
